

TimeSolv

TimeSolv - Powerful Online Legal Time Tracking and Billing Software

Premium Time Tracking Capability

TimeSolv's time-tracking features allow you to track time anywhere on any device, regardless if you're online or off. Easily see at a glance time entered by day, week and month.

Robust Invoicing Features

Rate structures can handle the most complicated matters. Split billing can divide an invoice any conceivable way. Flexible billing template can present invoices exactly the way you want.

Get Paid Faster

Accept online payments with our Client Portal integrated with LawPay to get paid faster. Your clients expect convenience, TimeSolv delivers it. Credit card processing integration includes Affiiipay, LawPay and CPACharge.

Document Management & Automation

Easily store client and matter documents or integrate with NetDocuments or Dropbox. Create document templates for creating custom files in seconds.

Make Trust Accounting Easy

Set up multiple trust accounts, show balances on invoices and in your trust reports. Autopay invoices from trust. Have replenishment amount automatically added to invoices when account falls below threshold. Pay Trust account with Credit Card via the integrated LawPay Client Portal.

Integrated Billing & Invoicing

ABA task codes, UTBMS (Uniform Task-Based Management System), Chubbs, LEDES1998B, LEDES1998BI V2 and litigation advisor formats available for your online legal billing.

Accounting Integrations

Easily sync your data in both directions from TimeSolv and either **QuickBooks** Desktop, QuickBooks Online, and Xero Accounting.

Conversions from Timeslips

Timeslips data including history can be converted to TimeSolv.
